

QUICKLY CURES THE WORST BACKACHE

Makes Kidney Troubles, Bladder Disorders, and Rheumatic Pains Vanish

It is no longer necessary for anyone to suffer with backache, kidney trouble, have disagreeable bladder and urinary disorders to contend with, or be tortured with rheumatism, stiff joints, and its heart-wrenching pains, for the new discovery, Croxone, quickly and surely relieves all such troubles.

Croxone is the most wonderful remedy yet devised for ridding the system of uric acid and driving out all the poisonous impurities which cause such troubles. It is entirely different from all other remedies. It is not like anything else ever used for the purpose. It acts on the principle of cleaning out the poisons and removing the cause.

It soaks right in through the walls, membranes and linings, like water in a sponge, neutralizes, dissolves and makes the kidneys sift out and filter away, all the uric acid and poisons from the blood, and leaves the kidneys and urinary organs clean, strong, healthy and well.

It matters not how long you have suffered, how old you are, or what you have used, the very principle of Croxone is such that it is practically impossible to take it into the human system without results. There is nothing else on earth like it. It starts to work the minute you take it and relieves you the first time you use it.

If you suffer with pains in your back, and sides, or have any signs of kidney, bladder troubles, or rheumatism, such as puffy swellings under the eyes or in the feet and ankles, if you are nervous, tired, and run down, or bothered with urinary disorders, Croxone will quickly relieve you of your misery. You can secure an original package of Croxone at trifling cost from any first-class druggist. All druggists are authorized to personally return the purchase price if it fails in a single case.—Adv.

Overheated Electric Flatiron Burned Through Board, Threatening Residence.

Edward Freedom was bound over to county court yesterday in default of \$300 bail. When William Bissett was sentenced to 30 days in jail last week on a charge of intoxication, he disclosed on Freedom for furnishing.

The funeral of Elnathan Andrews took place yesterday morning from the home of his son, George Andrews, Rev. J. Edward Wright officiating. The bearers were three sons and a nephew of the deceased, George, Charles and Clarence Andrews and Melvin Hoadley. Burial was at South Duxbury.

The funeral of Daniel Scott was held yesterday afternoon from his late home, Rev. J. Edward Wright officiating. The bearers were Harry L. Richardson, James Ewing, Henry Scott of St. Albans and W. J. Parker of Burlington. Burial was in Green Mount cemetery.

E. T. Seguin was awakened Sunday morning by the smell of smoke and upon investigation found that an electric flatiron, used the evening before, had become overheated and that his timely search undoubtedly prevented a fire.

Mrs. Seguin had used the flatiron and turned the button on the switch, which should have checked the current, but on account of a defective switch, it is supposed, the power still continued. When discovered, an iron stand, over an inch high, on which the flatiron stood, was heated red hot, the ironing board was burned, and the ironing board was burned in two. Poor circulation of air is probably all that prevented a conflagration.

Benjamin F. Deming and Ruth K. Lowe, both of Montpelier, were married in Woodsville, N. H., April 19, by Rev. C. E. McIntire.

PAID \$36.74 for Trout.

Orlin H. Ellis Fined in Brattleboro Municipal Court Yesterday.

Brattleboro, April 29.—Orlin H. Ellis, municipal judge, yesterday and pleaded guilty to having four short trout in his possession. He was ordered to pay a fine of \$30 and costs of \$6.74. The complaint was made by Paul B. Locke of Marlboro, a deputy fish and game warden, who caught him Sunday in that town. State's Attorney A. V. D. Piper appeared for the state and Attorney W. D. Smith for the respondent.

This is the first fine imposed under the new statute relating to fishing and it would appear that it may be subject to more than one interpretation. The law provides that a fine of \$10 shall be imposed for violation of the particular statute and \$5 for each short trout. As Judge Daley interpreted the law there was but one violation, and each of the four short trout called for \$5 additional, which made a total of \$30 imposed.

MAGAZINE REVIEW

The Young Man's First Call on His Girl.

In an article entitled, "The Social Problems of a Girl," in the April Woman's Home Companion, appears the following:

"In connection with calling arises at once the question of a girl receiving a young man alone. Shall a chaperon be present while he is calling, or not?"

"Again the habit varies. In some of the more sophisticated localities it is customary for an older person to be in the room when a young girl receives men callers, but this is the rare exception. None the less it is a social blunder to keep the parents strictly out of sight when strangers come to the house. The first time a man calls at a house the girl whom he visits should plan to have him meet her father and mother. This may be arranged without any stiffness. The young man may be ushered into the room where the parents are sitting and be introduced to them there, or better still, they may come into the parlor while he is there and sit down for a few minutes' chat."

"At other times when the man calls, the girl's father or mother may stop in the room for a word of greeting or a little talk without feeling it essential to remain during the entire visit. With all due deference to parents, it cannot be denied that a man and woman of any age, like two men or two women, become better acquainted when alone together than in the presence of others. The occasional presence of the seniors seals the acquaintanceship of the young people with the approval of the parents, and incidentally gives the latter the opportunity to discern if the caller is a desirable friend."

"The hours of evening calling vary with the locality. As a general rule they may be said to last from eight or eight-thirty to ten or half past. Later hours than these are decidedly bad form either for arrival or departure, except when a good deal of intimacy exists. For a first call a man should not remain, at the outside, for more than an hour or so, and a girl should not encourage him to do so."

The Woman's Home Companion, which is offering prizes and otherwise promoting a campaign for "Better Babies" in the United States, publishes in its May number a report of a "Better Babies" show just held in Denver at which children were judged not according to their physical but according to their physical and mental condition. The Companion offered a prize of \$100 in gold to the best rural baby and \$100 in gold to the best city baby. After the rural baby prize had been awarded to Ralph Gullett, it was discovered that Hazel Lucile Cash, the little daughter of a Colorado ranchman, had been incorrectly classified as a city baby, and that if she had been correctly classified she would have won the rural baby prize. The report continues:

"Here was a sad state of affairs! 'The Cashes communicated with the committee in Denver, and the commit-

tee notified the editor of the Companion. The situation was truly pathetic. In Doctor Dittson's office sat the two small contestants, quite unconscious of the sensation they were creating, and with them sat their respective parents, to say nothing of troubled physicians and accusers. Mr. and Mrs. Gullett had already announced to relatives, friends and neighbors their good fortune, and had deposited the hundred dollars in a bank, pending the day it would be needed to complete his education."

"But the stern fact remained that little Hazel Cash did belong in the rural class, and there she held the place of first prize winner, outstripping Ralph Gullett by a whole point! And perhaps some day Hazel might need that money to go to college!"

"The poor committee felt like Buttercup in 'Pinafore,' who mixed the babies up. Finally they decided to leave the decision to the Companion. On the desk of the Companion's editor lay two letters. One was from Mrs. Gullett, thanking the donors for the gift that had started Ralph's educational nest egg. The other was from Mrs. Cash, pleading the case of her baby."

"What would you have done?"

"Just what the Companion did. It was decided to notify Mrs. Gullett that Ralph should keep his prize money, and to tell Mrs. Cash that Hazel should receive a consolation prize of one hundred dollars and have her rights duly recognized in the May issue of the magazine. And that is why you see Hazel Lucile Cash heralded on page 6 as the best rural baby in Colorado."

How Would You Have Settled This Dispute?

The Woman's Home Companion, which is offering prizes and otherwise promoting a campaign for "Better Babies" in the United States, publishes in its May number a report of a "Better Babies" show just held in Denver at which children were judged not according to their physical but according to their physical and mental condition.
